## LISÄTIETOA / ADDITIONAL INFO

Bändillä on oma IEM-räkki, jonka kautta hoidamme monitoroinnin itse, eli **lavamonitoreita ei tarvita ja vahvistimia tai kaappeja ei ole**. IEM-räkin splitteristä jaetaan omalla 8-XLR-multikaapelilla (Cordial CML 8-0 FM 5 C) kanavat (Kitara, basso, laulut, taustanauhat) miksaajalle.

The band has an own IEM rack through which the monitoring is done by the band themselves. **No stage / wedge monitors needed and no guitar or bass cabs used.** From the IEM Rack the Vox, Gtr, Bass and back tracks are split to FOH via band's own multi 8 XLR cable.
