16	BACK TRACK L	DI	SPLIT FROM IEM RACK
17	BACK TRACK R	DI	SPLIT FROM IEM RACK

LISÄTIETOA / ADDITIONAL INFO

Bändillä on oma IEM-räkki, jonka kautta hoidamme monitoroinnin itse, eli **lavamonitoreita ei tarvita ja vahvistimia tai kaappeja ei ole**. IEM-räkin splitteristä jaetaan omalla 8-XLR-multikaapelilla (Cordial CML 8-0 FM 5 C) kanavat (Kitara, basso, laulut, taustanauhat) miksaajalle.

The band has an own IEM rack through which the monitoring is done by the band themselves. **No stage / wedge monitors needed and no guitar or bass cabs used**. From the IEM Rack the Vox, Gtr, Bass and back tracks are split to FOH via band's own multi 8 XLR cable.

LANGATTOMIEN TAAJUUDET / WIRELESS FREQUENCIES

IEM: Sennheiser XSW IEM (3):

A = **476 - 500 Mhz**

B = **572 - 596 MHz**

C = **662 - 686 Mhz**

BASS: Sennheiser EW-D SK Base U1/5 / **823.2 - 831.8 / 863.2 - 864.8 MHz**

GUITAR: Sennheiser Instrument XSW-D Base Set / **2,4 GHz**
